# Hidden Mickey Hunt

Mickey has sure found some swell places to hide here in the wilderness! If you do a little exploring, I bet you will be able to find him. Start your adventure by reading each of the following clues. When you find the Hidden Mickey described, write down its location on the line provided.

Beavers, deer,  
And snakes all around  
A Knot in the log  
Is where I'll be found

---

Diamonds and moons  
Mark months of the year  
One diamond missing  
but please have no fear

---

In the fireplace mantle  
that sits in a nook  
Up toward the top in the stone  
Is where you should look

---

Rivers and streams  
in a frame that is gold  
The picture itself  
No Mickey does hold

---

Carolwood Pacific room,  
the home of our trains  
A mantle near warmth  
is where this one remains

---

These cars will take you both up  
and back down  
A diamond shape pattern  
makes four that are found

---

Go toward the laundry  
And on down the hall  
Look in the wood  
near the bottom of the wall

---

Your last one will also  
Be found in the stones  
Look very carefully  
In a room full of phones

---

Have a cup of stew  
Read the map in the sky  
You'll find me if you try.
